

The Quilt Shop Cuckoo Clock

The cuckoo's call triggers...

...the Quilter to lift her arm to rotary cut...

...and the kitty to jump with joy!

The pendulum is a hard-carved spool of thread.

It's Animated!

The Quilt Shop Cuckoo Clock

*Designed by Quilter
Jodie Davis*

While shooting a show for QNNtv.com at Bernina in Switzerland, Jodie arranged to shoot a second episode at the Schneider cuckoo clock factory in Germany and realized her dream of designing a Quilt Shop Cuckoo Clock!

Of course, she had to have one. And therefore had to import the minimum order.

Fortunately 74 other quilters loved the clock and surprise! : a business was born!
